Compact Fluorescent Retrofit Ballast

Texas Fluorescents can help you convert almost any incandescent fixture to compact fluorescent, 13W, 18W, or 26W by simply replacing the incandescent socket with either a GU24 socket or a socket/ballast kit that takes a standard 4 Pin lamp. Either purchase the kit to retrofit in the field or let Texas Fluorescents convert the fixtures. Available in 120V or 277V.

See Page 41 for ordering information.
