

PLIN Series

Low Profile Linear Lighting

FEATURES & SPECIFICATIONS

INTENDED USE

The PLIN Series is a subtle low-profile ellipsoidal pendant luminaire with 60% uplight and 40% downlight. Available in 96" and 48" modular lengths for individual or row configurations. For cable mounting only. End caps can be added to beginning of row, end of row or both ends of individual units. For continuous row mounting, wiring (supplied with fixture) feeds through enclosed wireway. Sleek, compact, and low profile bullnose silhouette makes a dynamic design statement used individually or in graceful linear runs. When suspended, the Low Profile appears to float in the environment. Ideal for settings requiring generous overall illumination as well controlled task lighting with the direct/indirect distributions.
