

H5L/H6L Wireguard

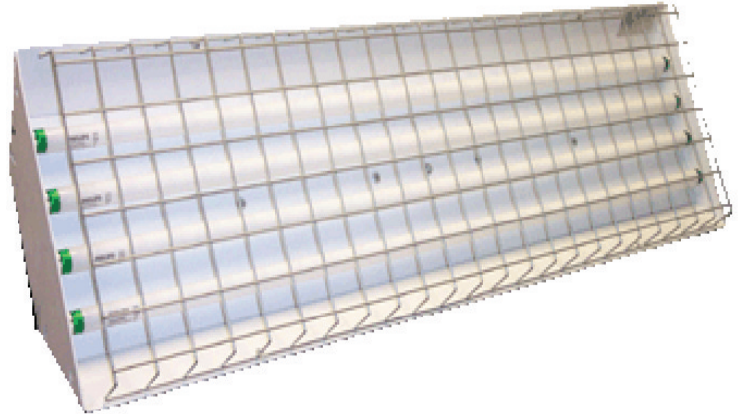

FEATURES & SPECIFICATIONS

INTENDED USE

These Zinc heavy duty wireguards fit with a lift and shift installation like a typical lens design on a wraparound fixture. The wireguard is ideal for applications that require protection of the lamps from balls and other objects. Available in white or zinc. Wireguard doesn't work with a lens.

MATERIALS & FEATURES

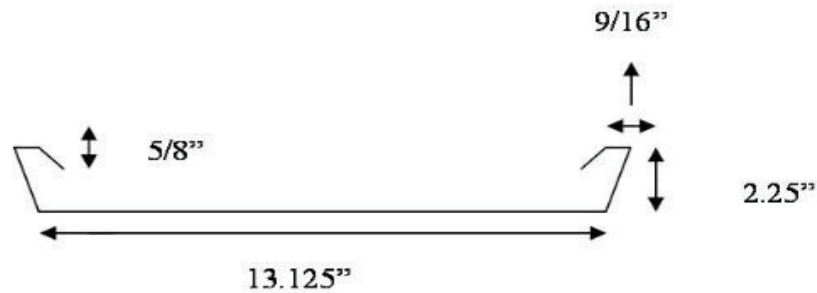

These wireguards are made of 11 gauge zinc with choice of unfinished or painted white. Size and layout is noted below.

H5L Wireguard
