

APPLICATION AND PERFORMANCE

This modern Outdoor series is ideal for hospitality applications that require a repetitive look that will not over power the space. Die-cast construction with thick bands across an equally thick frosted glass provides a highly durable product to withstand the elements. A powder coat silver finish is applied to withstand the outdoor elements and provide a modern decorative style. It is listed for wet location and meets California 2005 Title 24. It uses GU24 lamps up to 18 watts each.

Dimensions

14.12"L x 14.18"W x 5.5"D

Materials

Die-cast metal back plate and fixture with four bands across the front. Thick frosted glass. Mounts to standard junction box.

Electrical

Integrated ballast with GU24 lamp

Listing
