

LINEAR PENDANT LIGHTING

Fast becoming one of the most popular choices in both commercial and residential applications, these pendant mounted linear fluorescent fixtures put lots of light where you need it while meeting the latest in energy efficiency. Choose from a variety of styles depending on the amount of up and downlight required or simply the style. Each of these fixtures can be used individually or joined together. Each fixture offers over 50 high performance lamp and ballast configurations that adjust light output and power consumption to deliver the targeted illumination without wasted light or power.

Low Profile Linear Lighting

Ideal With
Premium
Performance
Options
(see page 44)

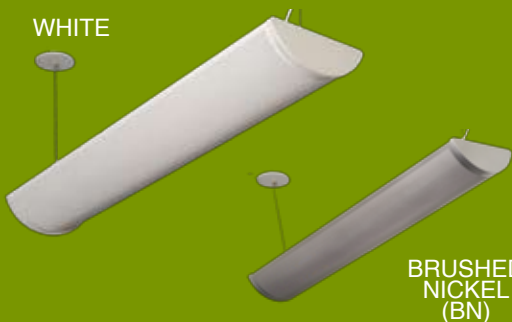

A sleek low profile, elegant statement that seems to float in any environment providing glare-free lighting with the semi specular aluminum parabolic louver. The 60% uplight and 40% downlight are ideal for residential and commercial applications demanding generous overall illumination with a controlled task light. Seamless steel ellipsoidal body is powder coated in choice of finishes. Can be mounted individually or in a continuous row and requires only two cable mounts every eight feet. Choice of T8 or T5 lamping.

| ITEM NO. | SIZE (L x W x H) | LAMPING |
